

713BE - Adjustable height walking trolley

This height adjustable trolley is a sturdy and robust walking aid for use within the home. The clip on plastic shelves are easy to clean with a lip around the edge to prevent items slipping off. Lockable hand brakes provide additional safety when rising from a seated position.

This trolley is supplied in a knock down version, with the detachable leg with castor fitted during the Assembly Process. 15cm wheels, the front of which are swivel aid manoeuvrability.

As the trolley has brakes, this can also be used as a walking frame and can be used around the home and for use within the garden/path areas.
